PHALANX[®] Urban Blast Wall Protection System

PHALANX UBW Series is water ballast blast wall providing aesthetic protection in urban environments
Height 2.4 meters

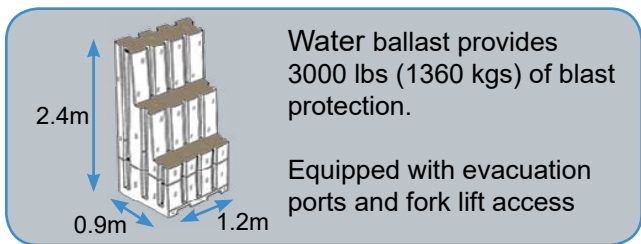

PHALANX UBW Series

Developed for urban city area protection against blasts and explosions, the Phalanx Modular Blast Wall adapts quickly to changing threat conditions while maintaining a functional inconspicuous aesthetic design. Manufactured with materials that catch shrapnel and eliminate rebound and ricochet provides increased safety to individuals and assets. Blast Wall is 94" Tall x 4' Long x 36" Wide at the bottom. (2.4m x 1.2m x 0.9m)

ADVANTAGES

No heavy equipment is necessary to install and place into position. Blast Walls have vertical tongue and groove ribs that interconnect blast wall for seamless wall protection. Blast Walls can be repositioned when threat changes occur by either emptying water through evacuation ports or by forklift. Designed for Embassy's, Airports, municipal buildings and any place where blast mitigation is a concern.

INCONSPICUOUS

Compliment area surroundings with formed 12" insets for decorative plant and flowers. Grey and tan granite colors blend with building structures while providing maximum blast protection.
